

Author's Kit

Thank you for participating in the 2022 ASEE Zone IV Conference at the University of British Columbia in Vancouver Canada.

This kit is a guide to help you submit and manage all abstracts and papers. Authors are responsible for following the procedures and meeting all deadlines and requirements in the paper submission process. ASEE is not responsible for papers that are withdrawn because they were incomplete or deadlines were missed.

These guidelines apply to all submissions for inclusion in the 2022 Zone IV conference program including **full paper, presentation only, poster, and workshop**. Presentation categories are summarized as follows (from the call for papers):

The four possible presentation formats for this conference are described below. Please choose the appropriate option for each submission. As a hybrid conference, virtual presentation and participation will be possible in any of these four formats. Works-in-Progress (WIPs) are welcome in any presentation format. Please see submission deadlines below.

1. Full Paper for Publication and Presentation

Please indicate in the first sentence of your abstract that you intend to follow up with a full paper. Submit an abstract of maximum 500 words and include, as appropriate, a clear description of the objectives and motivation, relevant background, assessment plan and results (if not a WIP). Authors of accepted abstracts will present their work in a conference session and will be required to prepare a full paper (maximum 10 pages) for review prior to publication in the conference proceedings. For papers to be published in the conference proceedings at least one author must register and present. Full papers are also eligible for the section best paper competition; the winner advances to the zone level and, if successful, to the national level best paper competition. **It is expected that the author(s) of a full paper submission will support the conference by reviewing one or more abstracts and papers submitted for the Zone Conference.**

2. Abstract-Reviewed Presentation

Please indicate in the first sentence of your abstract that you intend to prepare a presentation only (no full paper). Submit an abstract of maximum 500 words and include, as appropriate, a clear description of the objectives and motivation, relevant background, assessment plan and results (if not a WIP). It is not required to follow up with a full paper in order to present in a conference session.

3. Abstract-Reviewed Poster

Please indicate in the first sentence of your abstract that you intend to prepare a poster only (no full paper or presentation). Submit an abstract of maximum 500 words and include, as appropriate, a clear description of the objectives and motivation, relevant background, assessment plan and results (if not a WIP). It is not required to follow up with a full paper in order to participate in the conference poster session.

4. Workshops

Please indicate in the first sentence of your abstract that this is a workshop proposal. Limit your workshop description to a maximum of 1000 words that clearly states the objectives, targeted audience, and learning outcomes, as well as activities planned and approximate length. Please indicate if participants need to bring supplies, such as a laptop. The conference is supporting a mix of in-person, hybrid or online workshop modalities, please indicate your modality preference and give a brief description of how attendees will participate.

Questions regarding the abstract and paper submission process can be directed to the 2022 Technical Program Chair, Mudasser Wyne, mwyne@nu.edu.

Additional conference details and registration information will be available soon at the conference webpage: <https://aseezoneiv2022.engineering.ubc.ca/>

Author Responsibilities

Each Author who submits an abstract and paper should:

- Read this kit and follow all of the instructions (**this is extremely important**)
- Submit their abstract as a **TEXT ONLY** and their draft as a **PDF ONLY**
- Check that all information; from the paper title to the spelling of co-authors' name/s, is correct
- Indicate who is presenting the paper
- Pay the registration fee
- Assign someone else to manage your paper or pay your fees, if you are unavailable to do so yourself
- Contact ASEE Conferences Staff at conferences@asee.org or 202.350.5720 with any questions or problems

Potential problems

Be advised, your paper will not be published if you:

- Fail to submit a final copy of the paper before the deadline
- Fail to register for the conference by the deadline
- Fail to assign the paper's copyright to ASEE so it can be published

Other authors have had papers published with unfortunate mistakes. Please don't let these happen to you:

- Failure to add co-authors and check the spelling of their names before marking your paper as finalized
- Failure to proofread your biography before submitting the final paper
- Failure to check the uploaded version of the final paper for formatting and other errors

NOTICE!

It is only necessary to submit a paper draft if you intend for your paper to be published in the conference proceedings. No additional submission steps beyond the abstract phase are required for abstract-reviewed presentations, abstract-reviewed posters, or workshops.

Conditions:

- Peer review occurs for both abstracts and papers. Abstract acceptance does not guarantee acceptance of the paper.
- Submission of abstracts and final papers will be via the Monolith system and in accordance with ASEE published deadlines.
- **Plagiarism Policy:**
 - Please be sure to familiarize yourself with ASEE Plagiarism Policy. All authors are expected to comply with this policy. The policy can be found [here](#).

Logging into the System

- Note that ASEE has a new website, but the older Monolith website is being used for zone and section conferences this year.
- Given this you need to go to the Monolith home page (<https://monolith.asee.org/>) and click on “log in” in the upper right-hand corner
- You may need to use your old ASEE password (the one you used with Monolith)

2. Serious cases. A plagiarism case is considered serious if a substantial amount of either the original paper or the second paper is plagiarized. A duplicate publication case is serious if more than 50% of the original or second paper represents duplicated material. In this case, all of the author's manuscripts currently under review by ASEE journals and conferences will be immediately rejected. In addition, the author will be prohibited from publication in ASEE publications for one to three years. If the second paper appeared in an ASEE journal or conference, a notice of plagiarism or duplicate publication will be printed where appropriate.
3. Significant cases. A case of plagiarism is considered significant if 300 or more consecutive words are copied verbatim or nearly verbatim. A duplicate publication case is significant if a substantial amount of the original or second paper represents duplicated material. Division: Aerospace Division TEST

Authors

In the event your paper is accepted, these authors will appear in the proceedings in the order below. Also, please select the presenting author.

Name	Status	Presenting
Melyssa Author	accepted	<input type="radio"/>

+ Add a co-author

- Every paper has one main or *corresponding* author, who conducts all of the main business previously discussed.
- If your paper has co-authors, you should invite them so that they can log in, accept the invitation and confirm how their names, institutions, and biographies will be printed in the paper, in the program and on the conference proceedings.
- Co-authors can also view the paper's status.

BE ADVISED!

- **Only corresponding authors can upload attachments and only corresponding authors can assign that designation to a different co-author.**

In the *Authors* section, *add a co-author* by searching for a name or institution.

- If the co-author is an ASEE member or has previously participated in the conference, he or she will appear in the search results.

The screenshot shows a web browser window titled "ASEE Annual Conference:". The page is titled "Invite co-author".

1. Search by name, email address, or institution

asolove@gmail.com

2. Select a person to invite

Name	Organization	Email
No results found		

Would you like to email asolove@gmail.com and invite them to participate?

- If you can't find a co-author by name, try their email address. If we don't have an account for that address, you can *invite* them by email.
- The co-author can then create an account and decide how their name, institution, and biography will appear.
- Once you have added co-authors, you can place them in order. The ordering you set will be the order they appear in the program guide and on the paper's cover page.
- Also the default is for the corresponding author to be the one presenting the paper. If that is not correct, please select the presenting author from the list of co-authors. This can be done using the radio button next to the co-author.

Appendix E

What is IEEE Style?

The [Institute for Electrical and Electronics Engineers \(IEEE\)](#) is a professional organization supporting many branches of engineering, computer science, and information technology. In addition to publishing journals, magazines, and conference proceedings, IEEE also makes many standards for a wide variety of industries.

IEEE citation style includes in-text citations, numbered in square brackets, which refer to the full citation listed in the reference list at the end of the paper. The reference list is organized numerically, not alphabetically. For examples, see the [IEEE Editorial Style Manual](#).

The Basics:

In-text Citing It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [1], that will then correspond to the full citation in your reference list.

- Place bracketed citations within the line of text, before any punctuation, with a space before the first bracket.
- Number your sources as you cite them in the paper. Once you have referred to a source and given it a number, continue to use that number as you cite that source throughout the paper.
- When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5] or [1] - [5].

The below examples are from [Murdoch University's IEEE Style LibGuide](#).

Examples of in-text citations:

"...end of the line for my research [13]."

"This theory was first put forward in 1987 [1]."

"Scholtz [2] has argued that..."

"Several recent studies [3], [4], [15], [16] have suggested that...."

"For example, see [7]."

Creating a Reference List The Reference List appears at the end of your paper and provides the full citations for all the references you have used. List all references numerically in the order they've been cited within the paper, and include the bracketed number at the beginning of each reference.

- Title your list as **References** either centered or aligned left at the top of the page.
- Create a hanging indent for each reference with the bracketed numbers flush with the left side of the page. The hanging indent highlights the numerical sequence of your references.
- The author's name is listed as first initial, last name. Example: Adel Al Muhairy would be cited as A. Al Muhairy (NOT Al Muhairy, Adel).
- The title of an article is listed in quotation marks.
- The title of a journal or book is listed in italics.

The below examples are from the [IEEE Citation Reference Guide](#) and [Murdoch University's IEEE Style LibGuide](#).
